

## YOUTH TAKE OVER: Join a Landscape Design Team

Our job is to get young people jobs...and we'd love your help getting the word out.

### FAST FACTS FYI:

- This Take Over will give interns a chance to create a memorial garden at Edgar's Mission for the staff to remember the animals they have cared for.
- Interns will learn how to conceptualise a design, work on a client brief, work in a team and see how a real landscaper and designer would handle this job.
- Our facilitator is Flynn Hart, the director of Pollen, a landscape architecture studio.
- Great for young people with a particular interest in animals, working outdoors, helping a good cause, doing hands-on tasks, project management and having a positive impact.
- Sessions will be in person, in and around Lancefield and the wider Macedon Ranges area in 2023 with online options where necessary.
- We are recruiting a group of up to 12 people aged 15-25 for this Take Over.
- All young people are given \$500 to reimburse travel costs to and from the Take Over.
- Interns must be able to commit to a minimum of two hours every week, for 8 weeks. Sessions will run on Tuesday afternoons, starting 7 March.
